Nicholas Pearson Associates

Environmental Planners
Landscape Architects
Ecologists

Nicholas Pearson Associates is an award winning, multi-disciplinary Company providing integrated, professional consultancy services in **Ecology, Environmental Planning** and **Landscape Architecture.**

We have an established reputation for our high quality of service, attention to detail and application of a range of skills to the broadest diversity of site locations, projects and development types. We thrive on being able to creatively influence projects with respect to environmental considerations.

The Company was established in 1982 and has its head office in Bath, with other offices in Tiverton. Our work is driven by the three interrelating core professional disciplines within the company:

Ecology

Ecology is the study of the interrelationships between all living organisms and their environment. We have a well-established and highly regarded in-house team of nine ecologists encompassing individuals with both general ecological knowledge and specialist expertise in particular aspects of ecology including.

- Habitat surveys (terrestrial and inter-tidal);
- Botanical surveys (including NVC of all habitats);
- Surveys of European Protected Species (including bats, Great Crested Newts, Dormice and Otters);
- Surveys of frequently encountered British Protected Species (including reptiles, Water Voles and Badgers);
- Ecological Impact Assessments;

Environmental Planning

The company is accredited as a Registered Environmental Impact Assessor by the Institute of Environmental Management and Assessment (IEMA), because of the high quality of its Environmental Impact Assessment expertise. A number of staff are IEMA Registered EIA Practitioners or Associate Members of IEMA.

Landscape architecture

We have specialist skills in landscape assessment, master-planning of major projects, landscape design, river restoration and urban design. In addition we are one of the leading historic landscape appraisal consultancies in the UK.

If you require any further information about the Company or how we might be able to help you, please contact us.
